Inspection Rules - Certificate of Conformity

As of 03/12/12, Uganda National Bureau of Standards (UNBS) resumes its Pre Export Verification of Conformity to Standards (PVoC) program. According to the program, first introduced in 2010, all the goods subject to it, will have to be accompanied by Certificate of Conformity (CoC). UNBS officers at border points will verify certificates for integrity. No destination inspection is envisaged.

UNBS has contracted 3-international companies - SGS, Intertek and Bureau Veritas to carry out this exercise.

The aim of the program is to establish a quality import inspection regime that is in harmony with member states of the East African Community [EAC]. Uganda has been hit by cheap substandard goods, putting the public at risk, and crowding out local enterprises. All information, contacts, datasheets and lists of goods under CoC etc are to be found at:

[SGS](#)
[Intertek](#)
[Bureau Veritas](#)

The Program

Under the PVoC program UNBS requires that imported products whose standard specifications were declared compulsory under the UNBS Act 1983 must be inspected for conformity to the country's technical regulations and standards, or their approved equivalent. Its aim is to establish a quality import inspection regime that is in harmony with member states of the East African Community.

The above contracted companies help demonstrate compliance and issue a Certificate of Conformity which gives access to the Ugandan marketplace, avoids delays in customs and reduces potential losses from the import of non-compliant products. Depending on the certification route we provide one or a combination of the following interventions:

- Physical inspection prior to shipment
- Sampling, testing and analysis in accredited laboratories
- Audit of product manufacturing processes
- Documentary check and assessment of conformity with the requirements of the applicable technical regulations and standards, for example KSS, GSO, IEC

Goods Exempted from CoC

Ugandan standards take precedence where applicable. Conformance to international/regional standards like IEC, ISO, EN etc. is acceptable provided the Ugandan requirements are met

pVoC PROGRAM of UGANDA

Guidelines for Exporters and Importers

From June 9th, 2010, the pre-export Verification of Conformity (pVoC) program set by Uganda National Bureau of Standards (UNBS) requires that goods imported into Uganda shall be accompanied by a pVoC certificate.

The primary objectives of the program are to improve the safety and quality of products, as well as to ease clearance procedures, promote fair competition and fight against counterfeiting of goods.

Nowadays, Governments give high priority to promoting international trade and protecting the health and safety of citizens as well as care for the environment.

Bureau Veritas has been appointed by UNBS for the implementation of the program and for the issuance of the required certificate

Bureau Veritas verifies, in the region of export and prior to shipment, the conformity of the goods to Ugandan and/or international standards.

The verification consists of several steps such as verification of existing certificates and test reports, inspection of goods prior shipment, testing/analysis when necessary, registration and licensing

Upon satisfactory verification, certificate is issued and provided to Importer/Exporter.

- o o o -

Bureau Veritas is one of the most widely represented Conformity Assessment companies in the world. This worldwide coverage is provided by 1,330 offices and laboratories located in 140 countries on every continent with a total workforce of more than 59,000.

Through its Government Services and International Trade division, Bureau Veritas makes a significant contribution to trade facilitation for the benefit of many countries.

PROCEDURE

1. Request for verification

The Exporter/Importer lodges a request for verification with Bureau Veritas.

This request should include:

1. The list and designation of goods intended to be exported, name and address of the importer and exporter (pro forma invoice,...)
2. Conformity documents (usually provided by the exporter) that may be available for the goods intended to be exported, such as: Third party certificate / Test reports / Reports of analysis according to safety/hygiene standards
3. Information related to the location and provisional date of availability of goods to carry out the physical inspection of goods before shipment. (Filling up of the Request for Certificate (RFC) Form).

2. Routes to compliance

To facilitate trade and to adjust intervention according to the risk, the pVoC program offers 3 different routes to demonstrate compliance:

- Route A: applicable to any goods and any trader
- Route B: for frequent traders of homogeneous goods that have been registered by Bureau Veritas
- Route C: for manufacturer who had their goods licensed for Uganda

Documentary review / testing

Bureau Veritas reviews the information provided by the exporter and checks the adequacy against the Ugandan Standards. If necessary, samples are taken and laboratory testing/analysis is carried out.

Inspection

The objective of the inspection is to check that:

- Goods presented for inspection are the ones identified during the documentary review,
- Products comply with applicable standard.
- Goods match the description in the import documents.

In case of doubt, Bureau Veritas inspector may take samples for additional assessment.

3. pVoC certificate

Bureau Veritas verifies the inspection report against the provided documents. Upon satisfactory result, the secured certificate of conformity is issued.

This certificate shall be used for the clearance of the goods.

When major non conformities are detected, a non conformity report is issued.
